Note: With all 2007-2009 Triumph 675 models, the correct version to use is our 6mm version. With all 2010 models, Triumph produced two different swing arm types during that year, one with 6mm bobbins and the other with 8mm bobbins. Therefore, if you have a 2010 model, you will need to check using a 6 or 8mm bolts, which are the correct ones for your motorcycle.
